

Three Rivers Community College Strategic Plan 2020-2023

Goals	Activities	Metrics	Progress to Date
1. STUDENT SUCCESS Provide excellent educational experiences to prepare students for advancement to four-year institutions or for career readiness / enhancement.	Three Rivers will provide excellent educational experiences to prepare students for advancement to four-year institutions or for career readiness	<ul style="list-style-type: none"> • % students enrolled in ≥ 15 credits in one semester (fall or spring) • % of students enrolled in ≥ 30 credits in one year (fall, spring, summer) • % of students enrolled in distance-learning courses • % of students passing developmental English or Math courses in their first year (fall, spring, and summer) • % of students completing gateway English or Math courses with a C or better • Number of tutoring sessions offered in one year (fall, spring, summer) • % of students retained fall-to-spring and fall-to-fall 	<ul style="list-style-type: none"> • In Spring and Fall of 2018, we had our highest percentage of students enrolled in 15 or more credits in several years, but from Spring 2019 through Spring 2020 we returned to levels more consistent with historical data. In Fall of 2020, we achieved our highest percentage in at least eight years, with 10.3 percent of students registered for 15 or more credits. • No clear trend across academic years exists in terms of the percentage of students enrolled in ≥ 30 credits in a year. In 17/18, we have a value of 4.6%, followed by 4.8% in 18/19 and 4% in 19/20. The average over the three academic years prior to the strategic plan is identical to the average of our strategic plan period. • We have seen steady gains in the percentage of students taking distance learning courses, increasing in a near-linear pattern from 25.2% in Fall 2017 to 34.2% in Spring of 2020. • Pass rates for those students taking developmental math saw an increase for student starting in the Spring and Fall of 2018, but students starting in Spring of 2019 had a lower developmental pass rate than in years prior. Students starting in Fall of 2019 had a pass rate comparable to the rate in Fall 2017. Developmental English pass rates followed a similar pattern, though students starting in Fall of 2019 had an especially high pass rate of 63.4 percent. • Students starting in Spring of 2019 had a notably low gateway math course pass rate of 38.9%. In contrast, Fall 2019 hit our highest gateway math pass rate in the range of our strategic plan, with 56.8% passing. English pass rates were flat, with a Fall 2017 cohort pass rate of 66.5% serving as the peak, the Spring 2018 cohort representing the lowest pass rate with 53.5%, and the Fall 2019 cohort finishing with a 61.7% pass rate. • Tutoring sessions have seen large gains when looked at on both the year and semester level. From 16/17 to 18/19, we saw an increase of 2105 tutoring sessions. • Fall to Fall retention has declined since Fall 2017, albeit Fall 2019 numbers have been impacted by COVID-19. Our Fall to Spring retention rates have remained in the very narrow range of 66.6% to 69.3% for the past three years. Rates in the prior three years fell into a slightly higher range of 70.7% to 74.6 percent.

		<ul style="list-style-type: none"> • % of credential-seeking students who complete a degree or certificate within 3 years of initial enrollment. 	<ul style="list-style-type: none"> • The percentage of credential-seeking students who have earned a degree or certificate within three years has risen steadily, with 11.5% of students starting in the 17/18 academic year completing a credential within three years, regardless of full-time/part-time status.
	Students in career-focused programs are well-prepared for work, and programs demonstrate marketable quality.	<ul style="list-style-type: none"> • Employer satisfaction with student preparation survey (data currently not available) • Number of focused workforce development programs validated by local / regional labor data for high-demand jobs. • Seek/maintain accreditation for career-focused programs, i.e., nursing. 	<ul style="list-style-type: none"> • Employer satisfaction surveys have not been done with any regularity. Past employer surveys for programs have yielded very little employer feedback. • In terms of awards conferred, Non-credit has a peak in Fall 2017 and Spring 2018, largely due to the Manufacturing Prep program numbers. Number of programs that students earned an award in have declined. On the credit side, the Spring of 2019 had the most awards conferred, while the number of programs awarded in any given semester has declined. • Enrollment numbers for non-credit have been strong, with our largest enrollment term in the 2016-2020 data set being Spring 2020 at 234 students. Remarkably, Fall 2020 enrollment was only very slightly less at 211. • Workforce development data is encouraging as validated by P20WIN information. As a whole, graduates from the 2010-2011 were earning 3,851 more per quarter 8 quarters afterwards. Electrical Engineering grads were earning 4,524 more per quarter, our CJS and Fire Tech majors were earning 4,394 ore per quarter, and our Nurses were earning 9,653 more per quarter. • External program accreditation is required for the ECE and nursing. Both have been successful within the last two years in maintaining accreditation.
	College sustains an excellent reputation in transfer preparation.	<ul style="list-style-type: none"> • Number of articulation agreements 	<ul style="list-style-type: none"> • As of the 2019 -2020 AY, the college has 22 transfer articulations or agreements with other 4 yr. institutions. Some are broad but moist address specific programs, e.g. criminal justice, ECE, and dental hygiene. This does not include the TAP program which are not a closely within the college's purview. • CT-CCNP participates in twelve RN-BSN/MSN articulation agreements (https://www.ct.edu/academics/nursing#agreements)

		<ul style="list-style-type: none"> Top ten 4-year institutions TRCC students transfer into. 	<ul style="list-style-type: none"> The top ten 4yr transfer institutions averaged over 2015-20219 in order of highest to lowest are ECSU, UCONN, SCSU, CCSU, Southern New Hampshire U, NE Institute of Tech, Mitchell College, Charter Oak State College, WCSU, and the University of Tampa. The top three 4-year institutions TRCC Nursing students transfer to for their BSN/MSN completion are: <ol style="list-style-type: none"> University of Louisiana at Lafayette Western Governors University COSC
	College expands support of faculty development to advance teaching and learning.	<ul style="list-style-type: none"> Number of Center for Teaching events Number of professional development days. 	<ul style="list-style-type: none"> CFT events are offered throughout the academic year and by both the local and statewide group. During the 2019-20 academic year, the Center for Teaching activities at the 12 community colleges provided professional development support for 5146 program attendees in both the online and in-person programs. The three CFT system-wide programs provided support for 509 individuals, representing a 42% increase in participation in State-wide events over last year despite the cancelation of two of our largest programs, Schwab and Barnes. Ninety-six percent of the participants attended more than one event and 25% participated in all seven state-wide events. Professional days for the faculty continue to be organized by the CFT at the beginning of the spring semesters. The fall event is generally applicable to faculty and staff and is organized by the president's office or a designee individual or group. Nursing & AH: Annual; CT-CCNP Annual (except for May 2020 due to COVID-19)
	Establish clear, goal-oriented process to evaluate academic programs.	<ul style="list-style-type: none"> Systematically evaluate all certificate and degree programs to determine their relevance. 	<ul style="list-style-type: none"> Academic programs are assessed on a five-year schedule. A report is drafted by the program's coordinator and reviewed by the Curriculum Committee. Relevant student learning outcomes are provided to the CSCU for review, feedback and acceptance. Programs that have few graduates or do not provide outcomes that allow student success are processed for improvement or termination. The college has developed improvement plans and terminated several programs or certificates in the past years. Scheduled program evaluation at monthly nursing curriculum guided by ACEN standard's 1-6 <ul style="list-style-type: none"> Mission and Administrative Capacity Faculty and Staff

Goals	Activities	Metrics	Progress to Date							
2. IMAGE College of choice; promote the value and recognition of Three Rivers Community College and the CSCU as excellent venues to achieve educational goals.	Increase Marketing Efforts Continue to create a paradigm shift – that TRCC is a legitimate choice for college, not a last resort; it is for successful students as well as for students needing remedial help; it’s a responsible financial choice that reduces college debt; that transferring to 4-yr college is straightforward with no loss of credit.	<ul style="list-style-type: none">• % increase of enrollment of credit first year and transfer broken out by traditional students (up to age 21) and adults (22 and older), by semester, and by part-time and full-time• # of students who successfully transfer (if access to additional data from National Clearing House is allowed, add successful completion of Bachelor’s degree)		Fall 2016	Fall 2017	% Fall 16 to Fall 17	Fall 2018	% Fall 17 to Fall 18	Fall 2019	% Fall 18 to Fall 19

			<ul style="list-style-type: none"> Each Fiscal Year during this Plan TRCC has worked diligently to achieve the most efficient and effective use of funding available. CSCU System Office has determined that the CT Community Colleges have been in a budgetary crisis that is being addressed by the One College Initiative.
	Engage and inspire faculty innovation.	<ul style="list-style-type: none"> # of faculty and staff attended professional development by type (conference, workshop, courses, etc.), # of curriculum change requests (new, modify, termination), Percentage of faculty who have completed Teaching Effectiveness Certificate Program. 	<ul style="list-style-type: none"> This metric has been put on hold due to the pandemic. All Nursing Faculty participate in Professional Develop Activities Annually. All PD is documented in the Nursing Office and the faculty professional files. The Academic Dean's office tracks this metric which continues to be helpful with academic & curriculum planning. New Concept-Based Nursing Curriculum approved by the CT State Board of Nurse Examiners, ACEN, and the TRCC Curriculum Committee in Spring 2018. The CBC was implemented in Fall 2018 through Spring 2021. Recommend that this metric be replaced by Center For Teaching and other College wide Professional Development event participation.

Goals	Activities	Metrics	Progress to Date
4. PARTNERSHIPS Leverage and strengthen collaboration, partnerships, and responsiveness to students, employers, and communities.	Foster more collaboration with industry and other external partners; this includes recruiting subject matter experts from industry to serve as advisors and adjunct faculty.	<ul style="list-style-type: none"> Meet critical needs of Eastern Connecticut's manufacturing industries. Collaborate with Eastern Workforce Investment Board, General Dynamics-Electric Boat, EAMA, and Department of Labor to identify and deliver workforce training and funding. As the Trainer-of-Choice for Outside Machinist, Welding, Introduction to Manufacturing, Carpentry, Painting, and Design classes, deliver training outlined in the EWIB 3-year manufacturing pipeline. Provide assessment of pipeline annually. 	<ul style="list-style-type: none"> TRCC continues to meet the needs of the EWIB/EAMA/EB through 6 manufacturing pipeline programs ranging from design, welding to plastics and planning/logistics. TRCC has secured \$705,000.00 in DOD grant funding to support the submarine supply chain needs in welding, and also recruit youth and women into the trades.
	Pursue more partnerships with Healthcare / Allied Health programs serve community & students Program expansion & creation, weekend, RN-BSN, Allied health, IT/Network, Hospitality, Online courses.	<ul style="list-style-type: none"> Implement a Medical Assisting Associate of Science Degree program by Fall 2018, creating alternative degree programs and career opportunities for current and prospective students. Implement a Medical Administrative Assistant Certificate program by Spring 2018, creating alternative certificate programs and career opportunities for current and prospective students 	<ul style="list-style-type: none"> In partnership with the EWIB, CWP and Social Venture Partners, TRCC offered a Pharmacy Technician "Pipeline" training program; 9 students completed program and were placed into jobs or an externship at Hartford Healthcare. TRCC partners with the Health Education Center in Norwich, offering a 140-hour Community Health Worker Training program. In efforts to increase enrollment within the CMA program, TRCC attempted to implement a pathway program for NFA students however this did not come to fruition. We plan to implement the program in the Summer2021 or Fall 2021. TRCC continues to partner with NFA and Plainfield HS to provide a Certified Nurse Aide Program to high school seniors; Plainfield HS program is on hold this year due to COVID. RN clinical education includes Acute Care Hospitals (HHC, Yale NHH, ECHN, Gaylord Hospital, DKH),

			<p>Rehabilitation Healthcare Centers (Norwichtown, Westview), Home Healthcare (VNASC), Community Healthcare (UHD, MRC, Health Education Centers), Telehealth (HHC), school nursing care (Norwich Public Schools, Sprague Schools), Ambulatory Surgical Centers (Constitution Surgical Center)</p> <ul style="list-style-type: none"> • CCMA clinical education includes Ambulatory Healthcare (HHC, UCFS, Wood River Healthcare) • The CT-CCNP curriculum has been approved by the by the Connecticut Board of Regents for Higher Education and the Connecticut State Board of Examiners for Nursing, with the consent of the Commissioner of the Connecticut Department of Public Health • The Fall 2018 accreditation decision made by the ACEN Board of Commissioners for the Three Rivers Community College Nursing Program is <i>Continuing Accreditation</i> through 2026
	Increase internship opportunities for students.	<ul style="list-style-type: none"> • Appoint a TRCC internship coordinator who collaborates with industry and local employers to increase internship opportunities and post them on TRCC's College Central Network. • # of students participating in internships/co-ops/practicums by academic year 	<ul style="list-style-type: none"> • TRCC WCE Department serves 300 students each year via noncredit and credit-based Apprenticeship programs for EB employees. • All Enrolled Nursing Students in NUR 120, 125, 220, and 225 participate in direct patient care with clinical partners (170-180 students per semester) • All CCMA students enrolled in MED 280 participate in clinical education (12 students Spring 2020, first graduated cohort). 10 students Spring 2021

Leverage and strengthen collaboration, partnerships, and responsiveness to students,	Annual expenditure of Foundation sponsored activities	The allocation and disbursement of funds to support the College has increased by 28% from 2016 with annual support now over \$500,000. These funds support a variety of scholarships, programs and initiatives.																																														

	employers, and communities		
Goals	Activities	Metrics	Progress to Date
5. PROPOSED NEW GOAL: DIVERSITY/ EQUITY/INCLUSION	Become a member of the national association, Achieving the Dream (ATD), to identify areas of improvement which include familiarizing the community about educational equity through professional development activities, using data to identify areas for improvement to increase student success and developing strategies that holistically serve our student population.	Promote an environment that fosters and supports diversity, equity, and inclusion efforts.	<ul style="list-style-type: none"> • Create a ATD Core Team. Members include: President Jukoski, Dean Barfield, Dr. Todd Barry and Ms. Jodi Osborne, faculty and staff leads, and Alycia Ziegler, student activities lead. • Meet with coaches Paula Tally and Laurie Heacock on a regular basis. • Conduct a professional development day on student equity with Tony Santa Ana to explore key terms for building collective knowledge, the environmental requirements for organizational equity to thrive, what hinders equity change efforts, and select strategic actions to advance equity for all. • Faculty/Staff Equity Book discussion was introduced using the book, Teaching Across Cultural Strengths by Chavez and Longerbeam. Copies of the book were provided to all ATD members and fulltime faculty and funding for this effort was provided by the TR Foundation. • Student success data by subject and section was distributed individually to each faculty member. The data was disaggregated by race, ethnicity, gender, and other equity considerations. • Equity work was organized into five teams focusing on different student needs: <ul style="list-style-type: none"> +LGBTQ+ and Women +Support Services +Nontraditional Students, Caregivers, and Working Parents +Race +International and Cultural • A new TRCC Equity Statement is currently under consideration.

			<ul style="list-style-type: none"> • Student programs created and launched the Equity Newsletter • Implemented the Institutional Capacity Assessment Tool (ICAT) • Submitted Scale of Adoption Assessment (SOAA) • Hosted Capacity Café

	value, with special attention given to works by artists of color.		
	Increase and improve the inclusion of movies, literature, websites, etc. across disciplines. For example, in a physics or math class, the instructor could show the film <i>Hidden Figures</i> and/or visit websites that celebrate the accomplishments of Black scientists or read short stories or biographies. Another idea: do curriculum workshops to see what material instructors are including in their classes to make sure there are diverse representations. Even in 096 there could be brief writing(s) woven into the curriculum to include voices from the margins and a discussion of writings across cultures. In 095, there could be brief stories about students of color who have succeeded in math (to elicit a conversation about the challenges students of color face and ways to overcome them). These are just examples, but I think it would create a supportive environment for students of color, validation, and a great learning experience for other students.	Fall 2021+	<ul style="list-style-type: none"> • Academic Affairs • Faculty • Student Government Association • Student Clubs
Education/Training	Invest in campus-wide antiracism training, e.g. Provide professional development on such topics as sensitivity training	January 2021 May 2021	<ul style="list-style-type: none"> • Academic Affairs <ul style="list-style-type: none"> ○ Center for Teaching • HR Shared Services • TRC Foundation
	Schedule forums, perhaps student led to hear student experiences and perspectives	Professional Development days	<ul style="list-style-type: none"> • Student Affairs <ul style="list-style-type: none"> ○ Student Activities
